# Fisher Link ~ Italian Greyhound Vaccination & Deworming Report

**For vaccines administered in a series (such as core puppy vaccinations), each dose must be given no more than 4 Weeks (28 days) apart to ensure proper immunity development.**

Please note: While we understand individual veterinarians may follow different practices, all puppies must meet vaccination protocol to be eligible for travel. For example, rabies must be administered no later than 12 weeks of age-even for small breeds-if required by state or transport regulations. Following these guidelines helps avoid delays, disputes, and ensures a smooth process for both the breeder and buyer.
