Letter of Recommendation

To all Concerned:

I welcomed beautiful Izzy / Adrienne (with all her big bags packed) into our home at 4 months of age. She is now 9 months old. Adrienne has eyeliner on her beautiful, flirty face, magnificent muscles, and strength; albeit stubborn when tired/at night, she is a very smart girl.

Richard has been so helpful in making this a smooth transition, from regular growth expectations, to nutrition and supplements, Italian Greyhound health and temperament, he has been invaluable, available, and eager to assist. I'm so pleased that Richard has kept in touch. It was clear that he knew the breed well, loved working with the pups, and had very nicely initiated training with her.

Please let me know if I can help in any way hardychant@gmail.com
